

# Dreams of the global pandemic and visions of the future

AN INTERNATIONAL **SOCIAL DREAMING MATRIX**

*Your dreams, wherever you are,  
will add to our global understanding.  
Dreams reveal the emergent and often  
anticipate future scenarios.*

This is an invitation to join **three international social dreaming matrices**.

The aim is to explore and reflect on the contexts, emergencies and circumstances of the present moment, where social trauma has become a global trait, within the diversity of countries and cultures, social conditions, political choices and personal experiences.

Social Dreaming enables a collective sense making by which the thinking of dreams may be transformed into meaningful conversations and sharing.

The process offers opportunities to explore conscious and unconscious perceptions and meanings, as well as unexpected visions of the future.

An international pool of hosts will convene the matrices via [zoom \(zoom.us\)](https://zoom.us)

**David Armstrong** (UK), **Leslie Brissett** (UK),  
**Giovanni Foresti** (IT), **Franca Fubini** (IT),  
**Susan Long** (AU), **Evangeline Sarda** (US),  
**Yossi Triest** (IL), **Rosemary Viswanath** (IN)
